

**Instructions:**

1. Open up your bag and dump out contents carefully onto tabletop.
2. Create a wall out of the Legos, each row being constructed of the same color (consider ordering the Legos biggest on the bottom and smallest on the top).
3. Now deconstruct the wall (taking note of the sizes and colors of the Legos), and create a new wall, half the height, using only 4 Legos.
4. Repeat similar process with your second bag.

**Questions:**

- A. What did you notice about the final wall you built regarding the length of the Legos?
- B. What previously learned concept does this demonstrate?

**Instructions:**

1. Open up your bag and dump out contents carefully onto tabletop.
